4057 days ago 27875 views, like all previous GTA games, this one contains many button codes for people to play with. Many of these codes are the same as that of Vice City, however many new ones have been added. Please note that saving using button codes is a very bad idea. While there is nothing particularly wrong with using cheats, saving with them can lead to strange side effects during the game. They range from the strange behavior of pedestrians to the characters of the mission, killing themselves without warning. If you use cheats and save it is your FAULT and everything that happens as a result of these codes is up to you to be a cheat, not a game. If you glitch up to 95% of the full game because you cheated, hard shit. Play the game correctly and use cheats for fun. Enter all cheats at any time during the game. Entering the following button combination will add the following weapon to the players' inventory: Brass Knuckles, Baseball Bat, Colt. 45, Chrome Shotgun, Micro Uzi, AK-47, Country Rifle, Rocket Launcher, Molotov Cocktails, Spray Can.
